Our School Vision

At St. Mary's we believe that Jesus and the gospel values are central to our life-long journey in the Catholic faith. We value and support strong links between students, staff, families and the parish community by nurturing spiritual development.

We are a welcoming, inclusive and supportive community that values genuine relationships.

Each child has the right to feel happy, safe and valued as a creative and unique individual, in an environment where self-esteem, respect and resilience are fostered.

We educate children to become life-long learners, actively engaged in a changing world. In a stimulating environment, we implement innovative, consistent teaching and learning practices which cater for individual needs and encourage risk taking.

St. Mary's leadership and management teams value, support and empower all members of the school community
