

ICT TERM 4

In Term Four the children will continue to work on the skills taught and learnt throughout the year.

They will also learn new skills and programmes which will assist them in their learning.

Some of the skills and programmes children will learn in Term Four are:

- Use the internet based programme, 'Sploder' to create their own web based games.
- Continued use of programmes such as PowerPoint, Publisher, Excel and Word
- Use the computer based programme 'Robomind' to learn programming skills and programme a computer based Robot to perform certain tasks.
- Use the internet based programme 'freesound' to find different sound effect, which can be used in their movies.
- Use the internet based programme 'primary games arena' to practice keyboarding and mouse skills.
- Continued work on the Mathletics Website
- Internet based sites and programmes such as Google Images, Super Clubs Plus, ACMA Cybersafety website and Mathletics
- Other programmes such as Movie Maker, iMovie, Gimp and Kidspiration
- The Foundation children will focus on Cybersafety and Keyboard skills

The children will also continue to focus on Cybersafety and what it means to be safe on line. They will focus on the effective and safe use of the internet and web based programmes.
